DO NOW ACTIVITY: Welcome! I can't wait to get to know all of you and to share with you some of what I have learned about using iPads with high school aged students. Please introduce yourself to your neighbor, get settled, and complete the survey at: https://tinyurl.com/ipadintros

WORKSHOP ACTIVITY #1:

Overview: For the next unit you will be creating an electronic portfolio showing what you learned. This portfolio will be graded as a large classwork assignment (like a quiz grade). Today, you will experiment with the technology and create your first blog post.

Mission 1: Log In
- Tap on the app "kidblog"
- Click on the "Settings" button on the bottom left of the screen
- Tap "Add a Class"
- Tap "Login to Kidblog"
- Tap "Forgot your class URL?" (I know you didn't, just tap it anyways)
- Enter my email address: kjkeegan@cps.edu and tap "Search" on the keyboard
- Select "teacher test class" in the box that says "kidblog.org/"
- Tap on the place where you write your "Username" and use the scroll bar on the bottom to select your name
- Type your password in the password section; your password is your last name starting with a capital letter
- Tap "Login"

Mission 2: Set Up Your Profile
- Put your finger on the dark gray bar on the left hand side of the screen and swipe right to reveal the text next to the buttons
- Tap on the "Control Panel" on the left side
- Click on the icon on top that looks like two little people or floating heads
- Change your password to something you will remember
- Add your email
- Change your avatar
- Select a theme for your blog

Mission 3: Create a blog post about taking photos
- Create a blog post answering the following prompt: How do you post a photo to your blog on kidblog? Make sure to include both text and a photo in your post
- Title your post: "How to post a photo"

Mission 4: Create a blog post about taking video
- Create a blog post answering the following prompt: How do you post a video to your blog on kidblog? Make sure to include both text and a video in your post
- Title your post: "How to post a video"

Mission 5: Create a blog post about taking screenshots
- Create a blog post answering the following prompt: How do you post a screenshot to your blog on kidblog? Make sure to include both text and a screenshot in your post
- Take a screen shot by holding down the button on the top right of your ipad device at the same time as you hold down the home button
- Title your post: "How to post a screenshot"

WORKSHOP ACTIVITY #2: Schoology Access Code: 3GB8J-STXT6
